

ALEENA SUNNY

B.Tech Cyber Security Graduate

📞 9400865430 ✉ aleenasunnyjoseph@gmail.com 🔗 linkedin.com/in/aleena-sunny-a424b63aa

SUMMARY

Cyber Security graduate with hands-on experience in digital forensics, SOC operations, threat analysis, and secure software development. Skilled in monitoring security events, analyzing logs, identifying cyber threats, and supporting incident response activities. Familiar with SIEM concepts, MITRE ATTCK framework, malware analysis, vulnerability assessment, and networking fundamentals. Proficient in Python, Linux, Nmap, and Wireshark with strong analytical, documentation, and problem-solving abilities. Passionate about Security Operations Center (SOC), threat detection, and cybersecurity monitoring.

EDUCATION

Muthoot Institute of Technology and Science, Kochi

Bachelor of Technology in Cyber Security

2022–2026

CGPA: 6.92 / 10

St.Joseph's Higher Secondary School, Pullurampara

Higher Secondary Education

2021

Score: 84%

Infant Jesus English Medium School, Thiruvambady

SSLC

2019

Score: 98%

TECHNICAL SKILLS

Security & SOC Tools: Wireshark, Nmap, Burp Suite, OWASP ZAP, Kali Linux, Basic SIEM Concepts, Log Monitoring, Threat Analysis, IOC Detection

Programming & Scripting: Python, C, Java, HTML, CSS, Basic Bash Scripting

Networking & Security: TCP/IP, DNS, HTTP/HTTPS, Network Security Fundamentals, Vulnerability Assessment, Malware Analysis, Incident Response Basics, MITRE ATTCK Framework, Digital Forensics Fundamentals

Platform & Tools: Windows, Git, VS Code, Figma, LaTeX, MS Office, Linux

CyberSecurity: Cryptography, Network Security, Vulnerability Assessment.

Soft Skills: Leadership, Problem Solving, Adaptability, Teamwork, Communication

INTERNSHIP EXPERIENCE

CyberCell, Kochi

June 2024

- Interned at Cyber Cell Kochi, participating in cybersecurity workshops, learning about cybercrime laws, digital forensics, and threat analysis techniques.

PROJECT EXPERIENCE

Forensic Cyber Triage Tool

- Developed an AI-powered DFIR platform integrating disk forensics, PCAP analysis, IOC detection, and automated forensic reporting.
- Implemented a five-layer attack detection engine with MITRE ATT&CK mapping and an Isolation Forest-based AI risk scoring system for suspicious file prioritization.

Pocket Farm

- Developed an AI-based urban gardening platform providing localized crop recommendations, adaptive watering, and real-time weather alerts.
- Integrated Scikit-learn and OpenWeatherMap API to analyze sunlight, garden area, and weather conditions for personalized smart farming assistance.

LEADERSHIP EXPERIENCE

IEEE YESS'24 – Yearly Engineering Students Summit

- Volunteered at IEEE YESS'24, assisting with event coordination and participant support while engaging in technical sessions and networking activities.

CERTIFICATIONS

- System and Usable Security – IIT Indore, NPTEL (2025)
- Linguaskill Business English – Cambridge English (2023)
- Malware Analysis and Governance, Risk, and Compliance – L&T Edutech (2025)

ACHIEVEMENTS

Finalist-CTF(Capture The Flag)Competition - UST Reached the finalist round in a cybersecurity Capture The Flag competition by solving challenges related to cryptography,web security, and vulnerability exploitation
